

THE CLEAR CHOICE...

INVISIBLE SHIELD products allow you to **CLEAN, PROTECT & MAINTAIN** surfaces easily and affordably.

These proprietary and patented cleaners, coatings and dual-action surface treatments preserve & enhance everyday surfaces while making them easier to clean. They are manufactured to the highest standards and specifications.

UNELKO GUARANTEES that The Invisible Shield – when used as directed for the purposes intended – will not damage or etch an otherwise untreated version of the same surface; including glass, porcelain, ceramics, marble, granite, plastics, laminates, anodized aluminum, stainless steel and other polished or painted metals.

UNELKO FURTHER GUARANTEES that its Invisible Shield coating product will impart (invisible) water, soil & stain repellent barrier coatings, and that the applied coating is unaffected by washing with any soap, solvent or detergent that will not otherwise etch or damage an untreated version of the same surface.

UNELKO ALSO GUARANTEES that its barrier coating can be infinitely renewed as needed, if and when abraded from the surface.

CLEAN-X®

PERFECTION + PROTECTION

Protect your investment & keep your surfaces sparkling like new for a lifetime!

by Unelko Corporation

THE BEAUTY OF CLEAN-X INVISIBLE SHIELD®...

Clean-X INVISIBLE SHIELD® Glass & Surface Coating is the world's first non-stick 'invisible' protective coating for all glass, porcelain & ceramic surfaces. Its main function **shields surfaces with an 'invisible' nano-protective barrier coating against water, soil and stains for improved appearance, performance and less maintenance.** INVISIBLE SHIELD is so durable that it lasts on glass, porcelain and ceramic surfaces from months to years depending upon abrasion.

What's more, surfaces can be easily maintained and renewed for a lifetime with the coating INVISIBLE SHIELD® Glass & Surface Cleaner or REPEL Glass & Surface Cleaner.

Now, you can clean easier, faster and less frequently because dirt, grime & minerals won't stick with INVISIBLE SHIELD!

INVISIBLE SHIELD is not just a better option; it is the solution to eliminating laid on minerals!

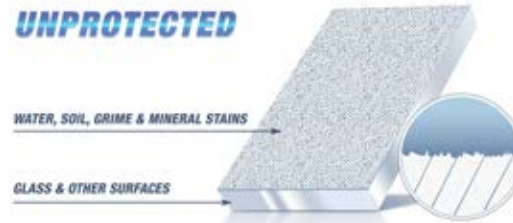

Why Use Amazing "Shield" Technology?

- 🛡️ **Resists Contaminates & Staining**
- 🛡️ **Makes Cleaning Easier**
- 🛡️ **Ends Scrubbing Forever**
- 🛡️ **Protects Against Re-soiling**
- 🛡️ **Saves Work, Damage & Replacements**
- 🛡️ **Eliminates the Need for Harsh Chemicals**
- 🛡️ **Chemical Resistant**
- 🛡️ **Keeps Surfaces Like New... For a Lifetime**

AND HOW IT WORKS!

Water, soil, calcium, rust, minerals & stains combine to penetrate the pores and buildup on untreated surfaces.

On a treated surface, water & soil stay on top of the surface without bonding for easy removal without abrasive cleansers.

UNELKO sets itself apart by offering innovative, high performance quality products that work remarkably! They are convenient, safe & environmentally-compliant products.

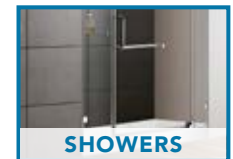

INVISIBLE SHIELD® COMPLETE GLASS CARE... FOR YOU!

CLEAN, SHINE & PROTECT all Bathroom Surfaces... with Invisible Shield cleaners, coatings and dual-action surface treatments. **There are multiple benefits for multiple applications in all surface industry categories including commercial glass, shower door, marine, automotive, solar, tech, optical and more.**
